## **NS-166 - Renewable Energies and Energy Efficiency in** the Private Sector

## Mexico

## **NAMA Seeking Support for Preparation**

	A Overview
A.1 Party	Mexico
A.2 Title of Mitigation Action A.3 Description of mitigation action	Renewable Energies and Energy Efficiency in the Private Sector This NAMA seeks to promote the implementation of steps for the diversification and strengthening of the national energy network, creation of new jobs, attraction of international funds for the execution of renewable energy and energy efficiency projects.
	The main benefits expected from this NAMA are:  1. Reduction of the use of fossil fuels.  2. Reduction of 15 million tons of CO2e per year once the maximum potencial of the NAMA is reached.  3. Promote the diversification of the national energy network by reducing the dependency on the fossil fuels for the power generation.  4. Fortify productivity and competitivity of national industry.  5. Promote the compliance of international agreements of Mexico against the climate change.  6. Creation of new jobs.  7. Attraction of international funds.
A.4 Sector	X Energy supply Residential and Commercial buildings Agriculture Waste management  Transport and its Infrastructure Industry Forestry
A.5 Technology	Bioenergy  X Energy Efficiency  Hydropower  Wind Energy  Carbon Capture and Storage  Land fill gas collection  Cleaner fuels  Geothermal Energy  Solar Energy  Ocean Energy  Low till / No till
A.6 Type of action	Other  National/ Sectoral goal Strategy X National/Sectoral policy or program  Other  National/Sectoral policy or project: Investment in infrastructure Project: other
