<i>Indicator A</i>		
<i>Indicator B</i>		
<i>...(if necessary)</i>		

para 65, 66 and 74(c)

Table 2-b
For NDC under Article 4

<i>Information</i>	<i>Description of methodology and/or accounting approach used</i>
Target(s)	
Constructions of baselines	... <i>(Specify, if necessary)</i>
Accounting approach, including how it is consistent with Article 4, paragraphs 13 and 14, of the Paris Agreement <i>(For first NDC)</i>	
How the reporting on chapter III.B and C in Annex of 18/CMA.1 is consistent with decision 4/CMA.1	
Any definitions needed to understand its NDC under Article 4	
Methodologies used to estimate mitigation co-benefits of adaptation actions and/or economic diversification plans	
Methodologies associated with any cooperative approaches that involve the use of ITMOs towards its NDC under Article 4, consistent with guidance developed related to Article 6;	
Methodologies used to track progress arising from the implementation of policies and measures	
Any other methodologies related to its NDC under Article 4	
Any conditions and assumptions relevant to the achievement of its NDC under Article 4.	
How the methodology in each reporting year is consistent with the methodology or methodologies used when communicating the NDC	
Methodological inconsistencies with the Party's most recent national inventory report, if applicable	
How double counting of net GHG emission reductions has been avoided, including in accordance with guidance developed related to Article 6, if relevant	
Information on how each cooperative approach promotes sustainable development; and ensures environmental integrity and transparency, including in governance; and applies robust accounting to ensure inter alia the avoidance of double counting, consistent with decisions adopted by the CMA on Article 6.
