### Letter of authorization

**TO:** UNFCCC Secretariat

**FROM:** Secretario de Estado en los despachos de Recursos Naturales y Ambiente

With regards to the cooperative approach, reducing emissions from deforestation and forest degradation, and the role of conservation, sustainable management of forests and enhancement of forest carbon stocks (REDD+), and in the context of Paragraph 34 of the UAE Consensus on the GST<sup>13</sup>, as further described in the documentation attached to this letter, we hereby acknowledge that these activities either reduce greenhouse gas emissions and/or remove carbon dioxide as accounted for on a national scale and in consistency with the national greenhouse gas inventory. Honduras has issued, or intends to issue, ITMOs for these emission reductions and/or removals.

We hereby authorize that the GHG emission reductions and/or removals as verified under Article 5.2 and posted on the UNFCCC Lima Information Hub, where relevant, are the result of a cooperative approach under Article 6.2 of the Paris Agreement and may be issued as ITMOs and used:

- a) For Other International Mitigation Purposes, or
- b) Towards a Nationally Determined Contribution (NDC) pursuant to Article 6, paragraph 3 of the Paris Agreement.
