Dear Madam,

Re: Addendum to Letter of Assurance and Authorization

Reference made to your letter dated on 04th August 2022 requesting to provide some additional information to letter of Assurance and Authorization for your project: "Improved Cook Stoves Programme for Rwanda(UNFCCC ID: 6207, GS Ref.Nr.1023)", in order to align with the latest set of rules of the Paris agreement;

Rwanda Environment Management Authority (REMA), being the Designed National Authority (DNA) for Clean Development Mechanism (CDM) in Rwanda, hereby confirms that the following 2 clauses are added to the letter of Assurance and Authorization dated on 11 October 2021, No 2468/DNA/2021:

1. Rwanda will consider in accordance with relevant decisions made under the Paris Agreement the issuance of the mitigation outcomes to represent first transfer.
2. Rwanda will report on the authorisation and the first transfer of the project's emission reductions or removals as Internationally Transferred Mitigation Outcomes (ITMOs) in a transparent manner in its biennial transparency report submitted under Article 13 of the Paris Agreement, and any relevant reports under Article 6 of the Paris Agreement.

I take the opportunity to assure you that REMA as Rwanda Designated National Authority (DNA) for Clean Development Mechanisms (CDM) will keep providing the updates on Paris agreement on the matter and invite Safer Rwanda to get ready to fulfill the requirements to transit its CDM activities to the new mechanism under article 6 of the Paris Agreement.

Sincerely,

Juliet KABERA
Director General

MUNYAZIKWIYE Faustin

DDG - REMA
